

Preliminary

Call for Papers

SASIMI 2010

THE 16TH WORKSHOP ON
SYNTHESIS AND SYSTEM INTEGRATION
OF MIXED INFORMATION TECHNOLOGIES

October 18–19, 2010

Grand Formosa Regent Taipei, Taipei, Taiwan

This workshop will provide an interchange forum on system design, design experiences, EDA, and design methodologies for both of industry and academy. Presentations on theoretical aspects, practical issues, case studies and applications are encouraged. The workshop gives an opportunity for presentation and discussion of advanced work and research. Works in progress and new ideas are also welcome. Special sessions for new hot topics will be provided. Proposals for the topics are welcome.

Areas of Interest include, but are not limited to:

- System Design and Design Experiences, Industry Experiences
- Embedded Software Design
- New Design Methodologies (MEMS, Design for Bio, Automobile, Environment, etc.)
- Design for Manufacturability
- Behavioral/Logic/Layout Synthesis
- Test, Verification and Simulation
- Analog and Mixed-Signal Design

Submission of Papers:

Prospective authors are invited to submit extended abstract, not exceeding 6 pages, electronically by June 4, 2010, at the URL below. Detailed instructions for paper submission will be available at our web site. Official language is English.

Key Dates:

Submission due date:	June	4,	2010
Notification of Acceptance:	July	30,	2010
Final paper due date:	September	3,	2010

Questions should be directed to:
